

## Things you need to know...

I had every intention in sending this newsletter out in the first quarter of this year, but time has run away with me!

I hope you enjoy reading about what has been happening with Skin Things as we have had an action packed year so far. Thank you for your support and feedback. We all appreciate constructive comments, as without them, we would not be able to improve our service. Remember, if you are not satisfied with the quality of your product we will exchange it for you. There have been a few teething problems with the eye cream pumps for example. If yours is not working properly, please let us know and we will exchange it for you. We want you to be happy!

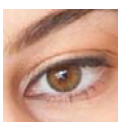

All our products are available online at [www.skinthings.com.au](http://www.skinthings.com.au) except for Youngblood which can be ordered by

calling us directly on 08 8294 0575.

Youngblood have introduced a fantastic range of tinted moisturisers which give a light coverage. A wide range of paraben free shadows, blush and lipsticks are in.

### Party Lashes

We have introduced a trendy range of Party Lashes to compliment any eye shape.

So if you have a special

occasion, pop into the salon and we can help you apply them or you can apply them yourself with a special applicator – No mess! No fuss!

### Youthful skin.....

We all want to stay looking younger for longer – well I definitely do! Quality, affordable, natural products that are free from “nasties” is just the first step we have taken at Skin Things.

**Max7** light therapy treatments for skin rejuvenation was our second step. ## NEW PRODUCTS:

### Australian Native Range –

I love Australia! There are so many beautiful Australian raw ingredients to choose from when making a skincare range. Please look out for our new Wattle seed facial polish. Absolutely divine!

Our Inspire facial spritz is refreshing and uplifting – great for travelling and our male clients are using it as an after shave spritz. And probably my favourite: Australian Native Body Lotion with desert lime and wattle seed extract and Australian sandalwood essential oil for extra dry skin.

### Goats' milk liquid soap

Also new to our range – it can be used for eczema, dermatitis and ultra sensitive skin. It's so popular that we even sell it in 1L bottle and you get a FREE 250ml pump size. No waste and we are looking after the environment by encouraging you to refill your pump bottle.
